## Important information for your Neuschwanstein visit

**Booking: You book the tour on your desired date - we will do the rest!**

- **Departure times** from Munich between **08:00 and 09:30** (the sooner the better!)
- **Entry time** for the castle depends on the departure time from Munich
- We always try to book the **optimal admission time** for our guests.
- If the online ticket quota is sold out, **30.00 Euro** will be charged once for the organization of the tickets. This also applies to short-term tours (e.g. for the next day)

### Reaching the castle:

There are **three ways** to reach the castle entrance:

- **On foot**, about 30 minutes uphill (moderately strenuous).
- **With a carriage** (a small part still must be walked uphill)
- By **shuttle bus** (most comfortable way to get to the castle).
- Carriage and shuttle bus may not be available depending on **weather conditions (ice, snow)**. In this case the only way **up to the castle is on foot**.
- Neuschwanstein is the most visited attraction in Bavaria. The fairytale castle is idyllically situated on a dreamlike rock. Unfortunately, the castle is difficult to reach for guests with mobile restrictions.

### The guided tour inside the castle:

- **Duration** of the tour: approx. **35 - 45 minutes**
- Large **bags, suitcases** or **backpacks** are not allowed!!
- There are **several stairs** to be mastered inside the castle!
- **Photography and filming are strictly prohibited** inside the castle!

### Good to know:

- For children and adolescents **under the age of 18**, the visit to the castle is **free of charge**.
- We have **child seats** for all ages! Please tell us the **age** of your children.
- Please pay attention to **suitable footwear** and inform yourself in advance about the **weather** on the day of your visit to the castle.
- **Important: Bring your passport for possible border crossing to Austria!**

### Program in the afternoon

- The **schedule** depends on the starting time of the guided tour inside the castle. We have numerous possibilities for the design of the rest of the day in our tour description.
- Nevertheless, we recommend deciding **spontaneously** on the respective day according to time, weather and to your heart's content. Your guide will be happy to advise you and respond to your wishes!
